casala

Quality materials united for stylish interior concepts

Casala's materials and finishes combine a harmonious blend of colours and patterns ensuring they both complement and integrate effortlessly with each interior concept for professional and public spaces. In today's world, the choice of materials is not just about design and functionality, but also about the broader impact on our environment. Our materials contain a high percentage of recycled content and meet various standard certifications. We are continuously looking for innovative and sustainable materials and production techniques, while maintaining commitment to quality, sustainability and our philosophy "Design Linked to Functionality".

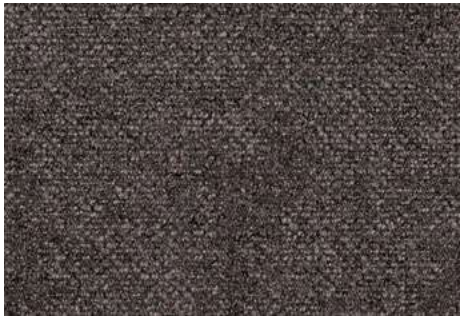
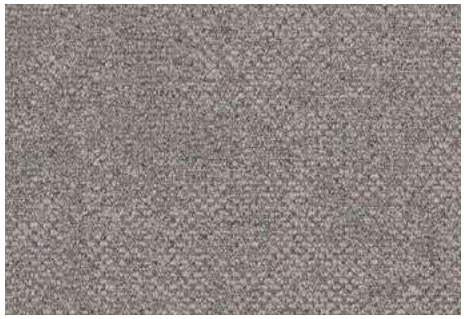
KABANNA FLOOR



9082

9096

9504



9526

CIRCULAR MATERIALS

The Kabanna floor collection (Recharge by Desso) is a truly circular product, designed to be disassembled so its components can be easily recycled into raw materials for new carpet tiles. This collection comes standard with an improved EcoBase backing, which sees a new bio-based ingredient replace a core ingredient formerly composed of petroleum-based content. The Kabanna floor collection is EcoBase - 100% recyclable, contains up to 91% recycled and bio-based content.

Find out more information, specifications and certificates via:
