Tempest

Moving possibilities

Detail is everything.
It is why the Tempest flips,
rolls and unfolds possibilities
like no other table system
in the world.

PURE PURPOSE

Tempest is the original space-saving flip-top table system for use in multi-purpose eating, meeting, training and conferencing facilities. Whether you prefer a big conference table, a modular meeting table, a low lounge table or a high bar table, Tempest has the answers. Its beautiful and rock solid flip-top mechanism is unparalleled, and the elegant elliptical leg-design with concealed castors makes Tempest easy for just one person to “wheel-barrow” around swiftly and effortlessly.

”

We believe that design
is an intermediate body
– a link that appears in the
tension between art and
engineering, manufacturer
and user, tradition
and innovation.

Boris Berlin & Poul Christiansen

Designer
HOWE & Komplot Design

Tempest is design perfection, right down to the smallest details such as the beautiful flip-top mechanism, the concealed castor solution, and the refined elliptical feet.

The Victory and
Tempest table

Makings of a movement

Since 1928, HOWE has developed beautiful, functional furniture design. It began with new and innovative solutions to the Waldorf Astoria in New York but really took off during World War II with the now legendary, space-saving Victory table made for the U.S. Navy submarines. This continued with the Tempest flip-top table system that took flexible ideas to new lengths in the 1970's. To this day both the Victory and the Tempest tables remain benchmarks for quality and multi-functionality and move designers to keep pushing the envelope.
